

BusConnects Core Bus Corridor Project

Public Consultation Key Facts

Background

- Population in the Dublin region is due to grow by 25% by 2040, bringing it to almost 1.55m.
- Bus is the proven solution and main form of public transport across Dublin with 67% of public transport journeys each day made by bus.
- Cars only account for 30% of travel into the city centre each day.
- Bus carries x3 and x4 the number of people who travel on Luas or Dart and commuter rail.
- Commuting to work by bicycle has increased by 43% since 2011.

Core Bus Corridors Project

- 230kms of continuous bus priority and 200kms of cycle tracks along 16 of the busiest corridors in Dublin.
- Delivery of journey time savings of up to 40-50% on each corridor.
- On the four corridors unveiled today, annual passenger growth in Dublin Bus services has increased by up to 14% in the years 2015 to 2017.
- Yet bus lanes account for only in place for one-third of corridors.

Mitigation Efforts

- Where lands are being acquired, the NTA will ensure **new landscaping and replanting** of gardens, **reinstatement of driveways** and as well as **providing compensation** for the garden and driveway portion loss and disruption.
- Where private and public walls or fencing or removed, we will **rebuild and replace**.
- Where there is a loss of on-street parking and loading facilities, we will seek to provide, where feasible, alternative arrangements close by.
- Where trees are removed we will put in place a **comprehensive replanting programme** replacing more trees that we move. The programme will largely use mature or semi-mature ready-grown trees, and where it is feasible, plant them as close as possible to the original locations.
- We intend to create attractive local environments at key urban centres along the routes, with the provision of attractive landscaping, lighting, seating and other features.

Process of Engagement

- The NTA believes a step-by-step process of engagement is the best approach to take in delivering the Core Bus Corridors project.
- All property owners potentially affected by today's announcement have been notified by post and a one-to-one meeting is being offered with each of those impacted.
- Today marks the beginning of a dialogue with those potentially impacted which will continue into 2019 and throughout the project.
- Planning approval from An Bord Pleanála will be required for this project and for the acquisition of garden portions. That planning application will only be made in 2020.

- The NTA will also establish a Community Forum for each corridor where there will be an opportunity for a representative from Residents' Associations, Community Groups, Public Representatives and Interested Groups to get informed and engaged during the public consultation process.
- A series of public consultation meetings will be held in venues along the four corridors – details of which can be found on the BusConnects website.
- Written submissions and observations on the four corridors announced today may be made:
 - Online at: www.busconnects.ie;
 - Via post to: Core Bus Corridor Project, NTA, Dun Sceine, Harcourt Lane, Dublin 2, D02 WT20;
 - By email to: cbc@busconnects.ie.
